Introduction

For PATU, athletes, coaches and other athlete support personnel play a fundamental role in helping to realize a fairer system of play and in this way protect the integrity of sport at all levels. The mission of PATU, along with WT, is to set up a system that helps and protects the sporting state of all its competitors, especially the youngest, for this we have developed the U22 ranking, which has no other meaning than to reward and accompany the entire sporting stage of our athletes and give more privileges to those who deserve them the most for their perseverance, work and dedication to sport.

Thanks to our competitors' own personal victories through commitment, sacrifice and hard Work, PATU works intensely to ensure that no athlete is being cheated or disadvantaged in their sporting stage to do so and with the aim of qualifying in the best way we present this Ranking.

This Handbook is designed to provide PATU athletes with a summary of information needed to participate successfully and in the fairest way in the upcoming Asuncion 2025 Junior Pan American Games.

“The most important thing about the new PATU Ranking is the equality and sports motivation between the different stages of our youngest and the fact that the athlete is required to meet the highest standards, It is a commitment for PATU for the best to be rewarded as well as the best to be the winner. I believe that there are fighters who give themselves in the competition and it is very important that all the athletes in this program submit to a system that generates an equal playing field.
